

Graduation Essay Started Future Air Chief to Fame

BY OSCAR LEBRON

(Associated Press Aviation Editor)
WASHINGTON.—An essay started at Benham, D. Foulis on the path to the highest post in army aviation.

The officer, who will become chief of the air corps Dec. 30 with the rank of major general, wrote the essay as a graduation thesis in 1907 at the army signal school, Fort Leavenworth.

It was the first military treatise on the tactical and strategic value of airplanes, and marked the young officer as interested in flying.

A year later, when the army con-

tracted with the Wright Brothers for a machine, Foulis was detailed to aviation duty.

Named for Native State
He has a plane at Bolling field named the Connecticut, for the state where he was born Dec. 9, 1879.

"I try to fly from 10 to 12 hours a month," he said. "That is about the minimum anyone needs."

As commander of the division of more than 600 planes that maneuvered in May, he flew with a mechanic in heavy fog from Washington to Dayton. Other fliers turned back.

He is short and weighs 140 pounds. His face is wind-tanned and his dark hair, thinning at the top and slightly graying, bespeaks the length of his service as a soldier which began in the Spanish-American war.

Sold-Trained Flier
His most interesting experience, he says, was teaching himself to fly back in 1910.

"In all, I received a total of an hour and a half in the air with Wilbur Wright and Lieut. F. E. Humphreys."

Then Lieut. F. P. Lahm and Humphreys took the ship up and landed with a smash. Soon I was left with a broken plane and eight mechanics.

"We went to San Antonio, Tex., and started in. Every time I was stuck with a problem I'd write to the Wrights. You might say I learned flying by correspondence course."

During his experimental flights, Foulis designed wheels to take the place of skids and monorails. When the \$10 allotted by the government was spent, he drew \$300 from his modest pay to meet bills.

Aviation Radio Pioneer
In 1911 he adapted radio to airplane uses. In 1916 he organized and commanded the aerial forces of the Mexican punitive expedition and was mobbed at Chihuahua.

After America entered the World war he personally led the first all-American squadron over the German lines. He served as chief of the air service, A. E. F.

POLICE ANSWER 295 CALLS DURING MONTH

Report Made to Safety Director Shows Busy August for Department.

Fly the poor desk sergeants at police headquarters.

During the month of August, according to a report for the month submitted to Safety Director T. E. Bonnette, the two sergeants listened to 445 complaints covering a wide range of subjects, from what the neighbors had done or did not do, to what the husband or wife had done that he or she should not have done.

The police also answered 295 calls during the month and made 184 arrests. Traffic violators received 835 tags during the month and lodging was furnished 243 "floaters."

An increase of one in the number of arrests for intoxication over that of last month, was shown in the report. Fifteen were gathered in by the arm of the law during August for this cause.

Six runaway boys were apprehended during the month, two by the local police and four by railroad detectives. Eight were arrested during the month on illegal possession charges and four for reckless driving.

The report also shows 13 auto-

WHEAT YIELD HIGH

MILK PRODUCTION INCREASE FORECAST

Expected in Fall and Winter as Result of Low Feed Price.

By International News Service
COLUMBUS, O., Sept. 8.—Milk production will probably continue low during the remainder of the present pasture season, and production during the fall and winter months will likely be maintained at a fairly high level due to the low prices of feed grains and more than seasonal rise in the butter and cheese prices now prevailing, predicts Paul Frankhauser, rural economist at the Ohio State university.

Production per cow as reported by 29,000 crop correspondents was lower on Aug. 1, than a year ago and below the average for the five year period 1925 to 1929. In Ohio, milk production per cow is reported above that of last August.

This increase, he stated, may be attributed to the improved pasture conditions in the state as compared with those of last year.

However, over 40 per cent of the milk cows in the United States are in the drought stricken area. In practically all of this area, milk yields per cow are much lower than normal. In several states the drop amounts to a decrease of more than 10 per cent.

A boost in milk production during the fall and winter will probably be due to ample supplies of grains throughout the entire country due to the bumper wheat crop, Frankhauser said. If the supply of corn, oats, barley, and wheat materialize according to Aug. 1 production records, there will be an increase in all grains with the exception of oats.

Hay prospects, another factor influencing milk production, have slumped until on Aug. 1, total hay production was estimated to be 4 per cent below the poor yields of 1929. Most of the decrease is in alfalfa and wild hay.

In all states from Michigan west, hay production has been estimated to be 15 per cent less than in 1929. It is expected that the hay shortage will probably cause thousands of farmers to rid their herds of the least profitable cows kept over the winter in parts of the upper

Mississippi valley and western states. In the south, increased supplies of feed combined with extremely low cotton prices will stimulate continued expansion of dairy herds.

Chicago Reports 35 Arrests Daily Through Use of Cruiser Cars.
CHICAGO—Chicago's police radio, now one-year-old, is declared an outstanding success by police department and city officials.
"It is the most important improvement made in the police department during the last year," said Acting Police Commissioner John H. Alcock in his annual report.
E. F. McDonald Jr., who organized the technical committee which devised the police system said:
"I think it is the most important improvement in the last 25 years. The police have developed an arm of the law as swift as the gun and the automobile. Within the near future every city of more than 100,000 will be equipped with radios, but so far Chicago is far in the lead."
245 Police Flashers
An average of 245 police flashers are received daily by the 110 squad cars comprising the police fleet, according to William P. Hilliard, radio supervisor, who reported that during the last few months an average of 34 arrests daily are made as a direct result of the system. In many instances, his reports show, a squad car has only to be stopped in order to be at the spot where the radio reports a crime.
Hilliard announced that within the near future the three stations, north, south and west side, will be synchronized in order that one bulletin may be flashed simultaneously from all three.
Fireboats Equipped
In addition to the police radio, the three fire department fireboats were equipped with radio which keep them in touch constantly with the fire department through the police radio. Plans are being discussed for a separate fire department radio system.
Capt. John Anderson of the coast guard has asked Washington for permission to install radio equipment on life saving boats.
The idea of police radio had its inception in March, 1929, over a local station, which halted its programs to announce crime warnings to the five first police cars which were radio equipped.

RADIO SET MAKES ACTUAL FADEOUT
By International News Service. COLUMBUS, O.—Not only a radio wave but a radio set, as well, can "fade out" completely.
Wayne Parsons, a local radio fan, can vouch for this statement. He won a radio set as a prize at the Columbus radio show.
Placing it in his parked auto, he returned to the show. An hour later, he discovered that, due to "interference," the set had faded out of sight.

Canadian Engineers Report on Work at European Conference.
WASHINGTON—Telephoning by radio from rapidly moving trains and from ships far at sea is being studied as one of the most important of modern radio problems. It was shown when the state department made public reports of last month's Copenhagen conference.
The reports disclosed that the American delegation to the meeting of the International Technical Consulting committee on radio communication had been successful in keeping European politics out of the discussions.
Because of the propaganda carried into the homes in countries where governments or political parties control broadcasting, the allocation and number of broadcasting channels have been considered of increasing importance.
A move at the Copenhagen conference to put the delegates from 40 countries on record favoring an increase in the number of broadcasting channels was blocked by the United States delegation. It was decided to limit the meeting to technical discussions.
Increases in the number of broadcasting bands would mean a necessary decrease in the number of channels given to aviation, ships, amateur and fixed point-to-point communication. All varieties of radio work are fighting for increased facilities, and since there are only a certain number of bands, emphasis has been placed upon the need of improving mechanical efficiency to permit greater use of the air.
Recognizing the growth of ship-to-shore radio telephoning, the conference adopted a scale of frequency separations to prevent interference between the newly developed radio telephones and the already established radio telegraph.
The Canadian delegation presented results of experiments in telephoning from moving trains and the conference named a committee to study the question.
The research undertaken as a result of the Copenhagen conference and the recommendations adopted there will be presented to the International Radio conference at Madrid in September of 1932. This will be the first international radio conference since the Washington Radio convention was adopted here in 1927.
Daylight Saving Time in Dispute
By International News Service. STEUBENVILLE, O., Sept. 8.—Declaring flatly that daylight saving time is illegal in Ohio, state officials have taken steps to prevent an election on the proposed change in this vicinity.
City Solicitor Amasa Z. Strayer told city council here that there apparently is no excuse for the election which was planned in November.
Supplementing her own opinion, Miss Strayer asserted that a legal ruling obtained from the state bureau of inspection and supervision of state offices made a similar expression.
Because nearby Pennsylvania cities use eastern daylight time, business men in Steubenville recently persuaded council to adopt an ordinance providing for a vote on the question of a permanent change.
New Phone Lines.
By International News Service. HONOLULU.—Radio-telephone service between the Hawaiian Islands will be in service by October. The Mutual Telephone Co. here has already secured equipment and installation is under way.

OUTSIDERS BARRED
By International News Service. CINCINNATI, O., Sept. 8.—Out of the county lunch stands will be banned at the 1931 Cincinnati pumpkin show. The directors have ruled. Complaints from the local residents, restaurants, churches and lodges were made. The show will be held Oct. 7 to 10.

C., D. & M.-Presbies Battle To Stay in Little World Series

STITH HURLS NO-HIT, NO-RUN GAME; GOPHERS BEAT ELKS 3-0

IT'S EXIT FOR LOSER OF TODAY'S GAME, SO BOTH NINES ON EDGE

Electricians Favorites as Church Champions Lose Cunningham.

BY BOB KIRKPATRICK
Sports Editor, The Star

What are the odds today, I wonder, on the C., D. & M. Electric company to capture the recreation baseball championship of Marion? When the Little World series got under way something like two weeks ago the Electricians were rated a slight favorite to battle their way through the series to the championship. The Presbyterians and Irish were listed as even money shots to take the runner-up post. Now let's look at how they really stand with three games played and another due to go by the boards today at 6 p. m. at Lincoln park.

St. Mary's of the N. 2. Sunday school league picked to finish no better than second. It is first place with two victories and no defeats. The C., D. & M. the series favorite, is tied for second with one win and one loss. The Presbyterians hold the other half of the second place rung. The fourth

team in the series, the Kappa, have been eliminated with two defeats.

St. Mary's has to get off that second rung. There isn't room there for two teams. It will either be the C., D. & M. or the Presbyterians. Which of the two will be decided today when they get together in the fourth game of the series.

Everything considered, the Electricians still rate a slight chance to come out ahead. True enough, the industrial change looked like anything but a good ball club against the Irish last Thursday, but with that bad game out of their system they should be ready to put up a fight today. And it will be a fight. The Presbyterians have a minimum of sitting idly by and allowing themselves to be snared right out of the championship picture.

Don Shoemaker will hurl for the Presbyterians today. He is at it they have excepted a regular third baseman who can do the ringing of the going gets too tough for Shoemaker. Bob Gamble will probably start for the Electricians with Applegate in reserve. The Presbyterians will be weakened considerably today by the loss of Ted Cunningham, regular center fielder. Cunningham, who has been playing good ball for the Presbies, returns to teaching duties out of town today. His place will be filled by either Dick Morgan or Earl Cantner. Morgan has the better chance because he is much the more dangerous hitter, something the Presbyterians are badly in need of at the present time.

The Electricians will probably win by a small score but a victory for the Presbies would not rate as much of an upset. The loser is eliminated from the Little World series.

Henry Robertson, Oklahoma amateur golf champion, considers himself a jinx. They brought him bad luck once, and he has worn trousers ever since.

JENNER LUNCHESES TO MEET LINDEN CLUB IN TOURNNEY FINAL

Championship Battle Set for Sunday, Sept. 13; 1,200 See Three Semi-Final Contests. All Games Ending in Shutout Victories.

It will be the Jenner Lunches of Marion vs. the Linden Gophers of Columbus next Sunday in the battle for the central Ohio recreation baseball championship at Lincoln park. This was decided Sunday when the Marion nine plastered the Mohican Rubber company of Ashland and the Elks' Barbers of Findlay with 4-0 and 2-0 beatings respectively and "Doc" Stith hurled the Linden Gophers to a no-hit 2-0 victory over the Delaware Elks.

"Wallo Day! Wallo Day!" With some of the classiest softball being played since the game was introduced to the city sports fans, catchers being knocked stiff with foul tips, and city park policemen wielding 38 specials to capture an alleged law violator, the 1200 spectators were near nervous breakdown before the afternoon was completed.

Jenner Wins First.
The Jenner Lunches and Mohican Rubber company opened the day's festivities. And what an opening. The Jenner nine won, behind a three-hit pitching performance by Bob Gamble. Gamble allowed a double in the first, and a single in the fourth and seventh frames—that was all.

While Gamble was mowing down the Rubbermen his team mates were getting to Ryland, Mohican pitcher, for five hits which, with the aid of a pair of Mohican errors, they converted into four runs. The Jenner nine bunched three bingles in the fourth frame for three runs, Bob Merchant and Alex Kish contributing a triple and double toward the scoring efforts.

WORLD SERIES TO COMMENCE OCT. 1

BY THE ASSOCIATED PRESS
CHICAGO, Sept. 8.—The 1931 world series will open in the park of the National league champion, October 1. This was decided in the office of baseball commissioner Kenesaw Mountain Landis yesterday. Should St. Louis win the title, two games will be played there, with the next two days set aside for traveling to the stronghold of the American league champion, where three games will be played, if that many are necessary. Should the series go more than five games, the two remaining contests would be played in St. Louis.

If the New York Giants should overhaul the Cardinals, the series will open at New York, with the third game scheduled for October 3, in the American league title winner's park.

Only representatives of the Cardinals and the Philadelphia Athletics attended the meeting.

CALEDONIA VICTOR IN TRI-COUNTY TOURNNEY

Burggraf Hurls Two Victories in Eastern Half Title Struggle.

Caledonia won the Eastern half championship of the Tri-county league Sunday afternoon. On the Caledonia diamond in a three team tournament.

Burggraf, 17-year-old right-hander of Caledonia, stole the show at the tournament by hurling the champions to both of their victories. Burggraf shut out Prospect 2-0 in the first game and allowed one hit. He then twirled the second game for Caledonia against Denmark and won it 3-1. The one run was not earned, coming on an error. Twenty-five batters were fanned in the two games by the youthful right hander. He was nicked for a total of four hits in the two games.

Batteries for the game between Caledonia and Prospect were: Caledonia, Burggraf and Slagle; Prospect, Sheppard, Redman and Johnson. Batteries for the Caledonia-Denmark game were: Caledonia, Burggraf and Slagle; Denmark, Bell and Leasure. Moral lost to Denmark 2-0 in another game but no batteries were reported.

BRUINS, BRAVES SKID RAPIDLY DOWNWARD IN NATIONAL LEAGUE

Chicago in Fourth, Boston Sixth as Cubs Collapse; Cleveland Wins Pair.

BY HERBERT W. BARKE
Associated Press Sports Writer.

Virtually certain that the world's series again will pit the Philadelphia Athletics against the St. Louis Cardinals, baseball's major league fans perhaps can revive flagging interests by speculating upon the collapse of two National league clubs, the Chicago Cubs and the Boston Braves.

The Cubs, picked to give the Cardinals a battle for the pennant, today had lost nine straight games and fallen into fourth place in the standings. The Braves, sensations of the circuit during the early months and a fighting ball club until the last few weeks, have lost 15 of their last 16 games and now are in sixth place.

The Cardinals handed the Cubs a double beating yesterday, 1-0 and 3-3. Paul Derringer hung up his sixteenth victory of the season in the opener.

Burleigh Grimes was master of the Cubs batters in the nightcap. The Braves accepted two beatings. Continued on Page Seventeen

Waldo Captures First Crown in County Softball

Waldo Lutheran Sunday school is the first champion of the Marion county recreation baseball league. The champions won their spurs by defeating Pleasant township in the second game of a double-header bill Saturday at Lincoln park by a 3-1 score. Pleasant township was second place. Kirkpatrick was third and Caledonia fourth. Waldo and Pleasant are both members of the South division of the league, the other two being North section members. Waldo and Kirkpatrick were winners of their respective leagues.

Earl Furniss was victor in a horse shoe pitching tournament conducted Saturday in connection with the All-County day program at Lincoln park. Furniss tossed 13 single ringers, four double ringers and 16 extra points for 79 points to win the contest.

Batteries and score by innings of games played Saturday at Lincoln park in connection with the all-day program are as follows:

Kirkpatrick	020 000 2-4
Green Camp	206 262 0-12

TALENTED STARS TO OPPOSE HOUSE OF DAVID THURSDAY

MAR-O-DEL GOLFERS IN TOURNAMENT FOR CLUB CHAMPIONSHIP

Entry Deadline Extended in Marion County Amateur Links Tourney.

Match play among members of the Mar-O-Del golf club for the club championship is progressing at a lively pace, with several first round matches completed.

GROVER ALEXANDER

Bacon, Conroy in Lineup for Night Game at Lincoln Park.

It is a talented lineup of diamond stars that will face the House of David's baseball team at Lincoln park Thursday night of this week. Paul Chasner, local promoter of the game, has dug up some of the best baseball players produced in this vicinity in several years and is counting on giving the bearded players plenty of competition.

Rex and Don Denton of Carey have been signed to play at shortstop and rightfield. Both of these individuals, particularly the latter, are hard hitters and clever fielders. Both have been playing semi-pro ball for several years and have made an enviable record.

Stick Cross of Crestline, who last year received a tryout with Louisville of the American association, will be at first base for the local Francis Bacon, who needs no introduction to local fans, will come at second and that means one position well taken care of. C. Sharrack of Bucyrus will patrol the left field area with either Johnnie Marshall of Marion or Fred McClintock of Galion filling in the center field. Continued on Page Seventeen

team in the series, the Kappa, have been eliminated with two defeats.

St. Mary's has to get off that second rung. There isn't room there for two teams. It will either be the C., D. & M. or the Presbyterians. Which of the two will be decided today when they get together in the fourth game of the series.

Everything considered, the Electricians still rate a slight chance to come out ahead. True enough, the industrial change looked like anything but a good ball club against the Irish last Thursday, but with that bad game out of their system they should be ready to put up a fight today. And it will be a fight. The Presbyterians have a minimum of sitting idly by and allowing themselves to be snared right out of the championship picture.

Don Shoemaker will hurl for the Presbyterians today. He is at it they have excepted a regular third baseman who can do the ringing of the going gets too tough for Shoemaker. Bob Gamble will probably start for the Electricians with Applegate in reserve. The Presbyterians will be weakened considerably today by the loss of Ted Cunningham, regular center fielder. Cunningham, who has been playing good ball for the Presbies, returns to teaching duties out of town today. His place will be filled by either Dick Morgan or Earl Cantner. Morgan has the better chance because he is much the more dangerous hitter, something the Presbyterians are badly in need of at the present time.

The Electricians will probably win by a small score but a victory for the Presbies would not rate as much of an upset. The loser is eliminated from the Little World series.

Henry Robertson, Oklahoma amateur golf champion, considers himself a jinx. They brought him bad luck once, and he has worn trousers ever since.

efeller Gives Fund Aid Foreign Students

John D. Rockefeller, Jr., has announced a magnificent fund to aid foreign students in the Chicago metropolitan area.

Both the New York and the Berkeley International Houses were also created with funds donated by Rockefeller.

The New York house, situated on Columbia Heights, was the first enterprise of its kind in the world.

The Berkeley building, on the campus of the University of California, was completed and opened last autumn.

With completion of the Chicago institution all three geographical

divisions of the United States will have international student centers.

Rockefeller also plans to erect a fourth International House at Paris, France, within the near future.

How It Started

"Great Oaks from tiny acorns grow" and similarly from a merely casual incident grew the concept of the International House. The idea germinated 21 years ago in the mind of Harry Edmonds, present director of the New York International House.

It came about through a chance encounter between Edmonds and a foreign student in New York City who talked of his loneliness in the American metropolis. The student said that in three weeks spent in the city he had not once been greeted or entertained.

Edmonds became interested and began studying the problem which the student's words presented. Questioning numerous alien college students, he discovered that thousands of them felt "lost" in this country and a very few had any opportunity to come into contact with the real American life beneath the surface.

Starts Sunday Supper

As a result Edmonds initiated a series of Sunday suppers attended by Americans, as well as foreign students. Out of the discussions held at these Sunday suppers evolved the idea of the "world home" where alien and American students might live together in mutual understanding. This Sunday supper still survives as an institution at numerous colleges and universities.

Flashes of Life

By The Associated Press

LONDON—The widow's mite is aiding Britannia in her hour of need. Volunteer contribution to the Exchequer includes \$85 worth of old age pension vouchers, representing the last of an old woman's allowances of \$250 a week.

HAMMOND, Ind.—Automobile owners and persons who keep dogs are barred from financial help by the township. Trustee M. O. Burham has posted a notice which says: "For people who own dogs or automobiles can't expect help. Township will not furnish gas for auto or feed for dogs. One dog's feed will feed a child."

BRISON, CITY, N. C.—For the first time in tribal history Cherokee braves are sharing their sufferings with the squaws in a vote for chief. Jarrett Blythe of Wolf-town, who cannot speak the language, leads six other candidates. Returns come in slowly from remote sections of the reservation of Great Smoky and Flatt Balsam mountains.

NICE, France — General Charles Jacquemont has been less fortunate in conquering Java's thunderbolt than German Big Bertha. He was struck by lightning in camp near St. Etienne on Tuesday in the Alps and suffered injury to his head and body burns.

CINCINNATI—If W. H. Herlin has luck with his lions, Suale may have a mate to banish her loneliness in the zoo. Herlin is heading an expedition into the Congo and one of his commissions is to bring back a husband. Suale is a gorilla.

NEWARK, N. J.—Sheriff John P. Cuffe of Roberts County, S. D., and his deputy, Joseph F. Case, have no time for sight seeing when they are on official business. They drove 2,000 miles in a small sedan to get two prisoners and were ready to start back in 15 minutes. "You see," the sheriff explained, "we left only one deputy behind, and he's also the janitor of the court house, and things might be picking up back home." They were prevailed upon to have dinner and stay over night before returning with A. E. Wickard and Paul Chine, accused of embezzling county funds when in office.

SPRINGFIELD, Mo.—We don't want any "Canadian liquor control in this country."

So declared Mrs. Nellie G. Burger, Missouri state president of the W. C. T. U., and nationally known militant dry, after an eight-day W. C. T. U. convention in Toronto, Can.

"I think less of the Canadian system, having seen the one in Ontario, which is called the best in that country, than I did when I studied it in theory," Mrs. Burger said. "It makes every home a saloon."

MEXICANS LEAVE U. S. FOR HOME

By International News Service
MEXICO CITY—Sixty thousand Mexicans left the field and shops in various parts of the United States during the first six months of 1931 to return to their native land, according to official estimates published here. The scarcity of jobs and the difficult economic situation in the United States was given as the primary reason for the exodus. Hundreds of those returning to Mexico were aided by Mexican organizations and by the federal government, receiving in most cases free transportation to their various destinations.

G. O. P. PLAYED BY DEMOCRATS

Speakers at Ohio Rally Blame Ruling Party for Economic Conditions.

COLUMBUS, O., Sept. 8.—Responsibility for the economic depression was laid at the door of the Republican party by former U. S. Senator James A. Reed of Missouri and U. S. Senator Robert J. Bulkley of Ohio here last night.

Addressing a statewide Democratic rally, the speakers reiterated their opposition to prohibition, attacked the Republican tariff as a cause for slackened business and predicted that unemployment would be a chief issue in the next presidential campaign.

Governor George White also addressed the meeting. The governor limited his remarks to state matters, reviewing Ohio's plans for relieving unemployment through a public improvement program and a law fixing minimum wages on state contracts.

Senator Bulkley recommended that the Democrats include in the 1932 Presidential platform plank for unemployment relief and for remission of the Eighteenth amendment to the states. He suggested the adoption of a five-day working week of six hours a day to offset increased productive machinery resulting from modern machinery.

Republican administrations of the last 10 years, the Republican tariff and prohibition were blamed for the economic depression by former Senator Reed.

Charging that the Republican party had "paraded as the arbiter of prosperity" for half a century, the former Missouri senator declared "a party that pretends to be able to produce good times must be held responsible for the bad times occurring while it is in the saddle of power."

World governments, Reed said, have veered from the course of protecting life, liberty and property and have through tariffs changed the economic structure.

Drawing a word picture of a depression and unemployment, Reed said "all this wreckage has happened with the 'greatest engineer' the world ever produced sitting at the controls." Former President Coolidge, he charged, had "joined the bulls and become leader of the herd" in criticism of activities of the stock exchanges.

Wages Army of Youngsters Advances

Call in Ohio.

COLUMBUS, O., Sept. 8.—School boys today as classes were reported in most communities for the 1931-32 period.

There will be 1,200,000 pupils in the state's public schools this year, according to State Director of Education O. W. Skinner. This will represent an increase of 2 per cent over the 1930-31 period, he said.

Instead of decreasing public school enrollment, economic conditions have increased high school enrollment, Skinner said. This was believed due to the drop in employment for youths of high school age.

Statistics of the department of education revealed that enrollment in Ohio schools had increased 63,534 in four years. High school enrollment gained half that number since 1927.

The rapid development of junior high school systems caused elementary school enrollment to decrease. There was an increase of 4,160 in junior high school enrollment in 1930.

CAUTION ON PART OF AUTO DRIVERS URGED

School Opening Brings Added Chances for Accident, Secretary Warns.

A plea for greater caution on the part of Marion motorists was made this morning by the Marion Auto club, as thousands of pupils began the new school term.

The possibility of traffic fatalities became much greater today when the pupils began making daily trips to and from school, Mrs. D. V. Gallagher, secretary of the club, pointed out.

Much of the responsibility of preventing accidents must be taken by the motorists as hundreds of pupils have never been in school before, and have not yet been given proper instruction, Mrs. Gallagher continued.

School patrols will be organized in the near future to guard busy intersections against accidents during hours when school is taken up and dismissed, Mrs. Gallagher said. Similar patrols were organized last year.

TWIST BREAD

The wise mother keenly interested in the welfare of her children takes care in selecting pure wholesome bread.

Child dieticians tell us TWIST BREAD fulfills every requirement of the "balanced diet."

It is the ideal food for growing children—and for all of us. It makes healthier bodies and clearer brains.

Made from the finest ingredients—the same the careful wife or mother would choose herself—it is a loaf of superior goodness.

Besides—we add an extra amount of good, rich milk to lend added creaminess, wholesomeness and flavor.

Rising is stopped at the flavor point.

Meeting 50,000 people were out of employment. Matthew Wolf, vice president of the organization, declared those who control jobs should contribute them.

At Johnson City, Tenn., Secretary Doak of the labor department, voiced some optimism in predicting that before long the nation would be again on the "substantial plane of prosperity."

Senator Davis told an audience in his state of Pennsylvania, this action had been "weathering the greatest industrial storm in the history of the world in far better manner than any other."

The southern Democratic leader, Senator Harrison of Mississippi, at Tampa, Florida, blamed the Republican sponsored "tariff wall" for the unemployment situation and declared he was ready "to throw precedent to the winds and appropriate money out of the federal treasury" to meet it.

CATCH MAN AFTER BALL PARK CHASE

Hold E. Every on Charge of Fraud; Malted by Shots.

Recreation hall fans at Lincoln park Sunday afternoon were given an additional thrill when the police staged a capture which included the firing of several shots into the air by the officers.

Armed with a warrant for the arrest of E. Every, 20, of R. F. D. No. 2, Marion, on a charge of fraud, police went to the park Sunday afternoon when they learned Every was attending the game. Approached by the police Every, instead of submitting to arrest, decided on flight and led the police in a chase across the field until several shots fired into the air by the pursuing officers, caused him to change his mind. He was placed under arrest.

An affidavit charging that he had obtained money under false pretenses, was filed in municipal court by A. W. Houghton, against Every. According to the affidavit Every represented himself to be a salesman for a Dayton concern, and collected \$1 as the down payment on a quantity of laundry alpine. He is being held for arraignment before Municipal Judge W. R. Martin.

After being questioned by County Prosecutor R. M. Williams, McWhorter was released. He said lights from approaching automobile partially blinded him. The edge of the pile are now under repair, making driving hazardous where the accident occurred, he told authorities. McWhorter said he was driving 25 miles an hour.

A fractured skull, shock and broken legs caused McWhorter's death. He was a farmer, a native of Marion county. He was born May 5, 1865 to Frances McWhorter and Sarah Young McWhorter. He was married to Jennie Shields who died eight years ago. Two sisters, Mrs. Elizabeth Snider of 400 north Greenwood street and Mrs. H. B. Pottle of Plymouth survive. Funeral services will be held at 2 p. m. today at the home of Mrs. O. G. Almondinger, a niece residing in Pleasant township. Interment was to be made in Marion cemetery, with Rev. American Aviators Confident of Completing \$25,000 Prize Flight.

predicting the aviators would encounter helpful winds over a good part of their journey, although admitting the weather over the Aleutians would be "by no means ideal."

Carry Large Gas Supply The fliers estimated the 1,700 gallons of gasoline in the tanks of their plane would keep them in the air 47 hours. In addition, they carried 500 gallons of gasoline into the cockpit to give them fuel for two additional hours flying.

If they reach Seattle they will win \$25,000 offered by the Asahi Tokyo newspaper, for the first non-stop flight from Japan to North America south of a given degree of latitude. They will not be eligible for the Seattle prize of similar size because they did not take off within 50 miles of Tokyo.

They started from a remote beach whose hard-packed sandy surface presents almost no available runway of sufficient length for such a heavily loaded plane.

The total weight of their plane at take-off was a little less than six tons. As Moyle had predicted, they had no trouble taking off, clearing the beach after a run of 1,300 meters.

They had plenty of confidence that they would succeed. Allen put in an order for a Seattle breakfast of bacon and eggs, buckwheat cakes and plenty of syrup. Moyle wanted ham and eggs, corn cakes and maple food supply.

But Moyle and Allen didn't plan on going hungry all the way across the Pacific. They found room in the heavily loaded plane for five roast chickens, the gift of Mayor Yoji Kobayashi, and bread, butter and coffee.

Their getaway was the subject of favorable comment and congratulations by Colonel Lindbergh, as well as by Clyde Pangborn and Hugh Henshaw, another pair of American aviators in Japan seeking permission to make a transatlantic attempt.

"The boys have my best wishes," said Lindbergh. "It's a dangerous job they have undertaken."

TO REVEAL DETAILS OF INSURANCE PLOT

Former Candidate for Governor of Iowa Held for Attempted Fraud.

By The Associated Press

FERRY, Ia., Sept. 8.—County Attorney George Sackett said today that John M. Smith, insecticide manufacturer, has promised to tell a grand jury all the details of an alleged insurance plot in which he allegedly last winter, leaving an unidentified corpse in his burned automobile.

The county coroner made this statement after officers reported that Mrs. Smith had signed a statement admitting her husband's disappearance was part of a plan whereby she was to collect his \$50,000 life insurance policy.

Smith, the Farmer-Labor party for governor of Iowa, was held in jail at Adel, while his wife was in custody of state agents at Des Moines.

Smith's whereabouts remained unknown until last June 22, when he was found near a Garner, Iowa, roadside, bound with a wire. He was taken to the state hospital for treatment for a mental illness and subsequently removed to jail at Adel.

County Attorney Sackett said the grand jury probably would make its investigation of the affair this week.

Meanwhile the most mysterious element in the case—the identity of the charged corpse found in Smith's truck at the time of his disappearance, remained unexplained. The body was buried as that of Smith's but later was exhumed at the request of insurance companies.

THIEF FLEES HOUSE AS WOMAN SCREAMS

Mrs. Edward Hampshire of 287 Chestnut street sleeping in a downstairs bedroom at her home, was awakened early Sunday morning by the sound of someone in the room, according to a report made to police. Getting up in bed she was suddenly seized by the shoulder and ordered to keep quiet. Instead of complying with the order she screamed and the man fled to the basement, leaving the house by means of an open window.

An investigation showed he had entered the house by the same means and although he had ransacked several rooms, nothing had been taken.

Out on Bond. Olive Young, 37, of 390 north Grand avenue, was released under \$100 bond following her arrest Saturday night on an illegal possession charge. A small quantity of liquor was obtained by the police in a raid at her home. She was scheduled for hearing before Municipal Judge W. R. Martin this afternoon.

VICKS VapoRub NOW IN Stainless FORM...

Your same Vicks
.. only Color removed
Same Formula..

Same Price

REAL news in 26 million homes! The Vicks VapoRub you have always used... now comes to you in white, stainless form! A new process simply removes all color—and with it any chance of stain. It's the same matchless formula... at the same price.

There is nothing like Vicks, as most mothers know. It acts externally and directly—right where the trouble is... by stimulation and inhalation—2 ways at once. That's why it's the standby for colds in 3 out of 4 American homes—for all the family.

Your druggist now has Vicks in either the familiar original amber or new white, stainless form. Whichever you prefer, you get exactly the same time-tested medication—the same dependable Vicks—and at the same price.

Don't "dose" colds except on your Doctor's Advice

In Original Amber, Too
Your Druggist has Both

For a generation an especially selected amber preparation has been used as the base of Vicks, because we found no white or "stainless" base of satisfactory melting point and viscosity that would permit the gradual, long-continued vaporizing action that is distinctive of Vicks.

Through the perfection of a process which removes the natural color, without otherwise affecting its properties, Vicks Chemists have at last made Vicks VapoRub possible in white, colorless form, for those who prefer it.

Y. M. C. A. SWIMMING SCHEDULE CHANGED

Opening of School Causes Shifting
of Time.

The Y. M. C. A. swimming sched-
ule for September was announced
today with changes made necessary
by the opening of school.

Friendly Indians are scheduled
for Monday and Wednesday at 4
p. m. and 10:30 a. m. Saturday.
Pioneers swim at 4:45 p. m. on
Monday and Wednesday and 8:30
a. m. Saturday.

Employed boys and junior high
school students have classes at 8
p. m. Tuesday and Thursday, 4 p. m.
Friday and 2 p. m. Saturday. Senior
high students have classes at 7
p. m. each day, but Saturday when
they are scheduled at 3 p. m.

Classes for girls are Tuesday and
Thursday at 4 p. m. and for women
the same days at 8 p. m.

When asked upon their arrival in New York from France if
they intended to wed, Constance Bennett, of film fame, and the
Marquis de Falaise were non-committal. The Marquis, or "Hank,"
as he is known in Hollywood, is the husband of Gloria Swanson,
who recently divorced him there. The decree doesn't become final
until October. Maybe the wedding bells will then ring for Constance
and Hank.

"STAR WITNESS"

ENTERTAINING PICTURE

Charles "Chic" Sale, Walter Hu-
ston, Frances Starr and others in a
good cast in "The Star Witness" at
the Ohio through Wednesday are ex-
cellent in their portrayal of the con-
flict between gangs and law and
order in a large city.

The story moves swiftly, with
good shots of "emergency squads"
and gang cars racing through the
city. The picture, however, is not
a sordid crime story but is very
human with the intangible Chic
Sale and little Dicky Moore furnish-
ing the human interest.

The trouble starts when there is
a double gang killing in front of
the home of Sale's daughter and
her family. The entire group see-
the killer and promise to identify
him when he is tried. Naturally
the gang goes after the family,
beating up the husband, Grant At-
chell and kidnapping the 10-year-
old son. Walter Huston as the dis-
trict attorney, is given a real prob-
lem when the family refuses to
identify the killer, being in-
timidated by previous events. The
story has a conventional, but sat-
isfying ending.

A Bobby Jones short, a musical
number, an animated comedy and
a news reel are included in the
program.

SAY, FRIEND!

HERE'S THE WAY
THOUSANDS OF MEN
GET A FISTFUL
OF SMOKES FOR A

DIME!

Roll your own—Save money—
SEE what you smoke!

YOU can't go wrong on Target, buddy. For one
thin dime you get enough tobacco to make about
a couple of packs of ready-made cigarettes. No wonder
the smart boys are turning to Target!

"Target's made of fine Virginia, Burley, and Turkish
tobacco, blended just like the ready-made. Better, in
fact! What a bargain! A big package of fine tobacco
for 10¢—and two packs of gummed-edge papers free.

"Buy a package of Target; open the moistureproof
Cellophane wrap and take a sniff of the best tobacco
ever put out for a dime. Then take a gummed-edge
paper and roll yourself a cigarette. And if you like your
'lugs' as perfect as factory-made, trade six bits for
a Target Roller and it'll pay for itself in no time.
From then on, boys, you're rolling 'em on velvet!

"Man! oh man! what a smoke!"

AND GET THIS!

The United States Government tax on 20 cigarette
amounts to 6c. On 20 cigarettes you roll from Target
Tobacco the tax is just about 1c. No wonder you get
such value for a dime!

Three Marion Couples
in Wedding Ceremonies

Church Home of
The marriage of Miss Violet Doll and Harold Fetter was solemnized Sunday at 12:30 o'clock at Trinity Baptist church, in the presence of the families and friends of the bride and bridegroom. The double ring service was read by the pastor, Rev. Lawrence A. Wood.

Following the ceremony a reception was held and the wedding dinner served at the home of the bride's parents, Mr. and Mrs. C. L. Doll of 200 Girard avenue. The bride was charming in a wedding dress of white satin made with a floor-length skirt which fell from the natural waistline in wide tiers. The bodice was made with a neckline and small puff sleeves. A dash of white satin completed the costume with which she wore long white gloves and moire pumps. Her flowers were Johanna

Hill roses and edentum arranged in a colonial bouquet and she wore a pendant necklace the gift of the bridegroom.

Miss Doll's only attendant was her maid of honor, Miss Janice Zachman, who wore a gown of black and white flowered chiffon made in a princess model. A black velvet sash marked her waistline and completing the costume was a sleeveless jacket of the same material and a small black velvet hat and gloves. Miss Zachman's flowers were an arm bouquet of Perpetua roses and gypsophila. The bridegroom was attended by his brother, William Fetter.

The bride's mother wore a gown of royal blue crepe with hat pumps and gloves in tan color. Mrs. Fetter was attired in a dress of black crepe with a jacket and accessories in black.

Vases of gladioli in the bride's colors of green and white decorated two long tables arranged for the wedding dinner at which covers were placed for 30. Seated at the bride's table which was centered with a wedding cake, were members of the bridal party and parents of the bride and bridegroom.

Mr. and Mrs. Fetter left Sunday afternoon on a two-week motor trip to northern Michigan. Upon their return they will be at home at 321 south Prospect street. For traveling Mrs. Fetter wore a suit in black and white with black and white pumps hat gloves and purses. Mrs. Fetter is a graduate of Harding High school with the class of 1930 and is employed with the Montgomery Ward company. Mr. Fetter is the son of Mr. and Mrs. William E. Fetter of 307 west Church street. He is a graduate of Harding High school with the class of 1928 and is employed in the office of the C. D. & M. Electric Co.

Wood Haberman
Wedding At Home

A LOVELY home wedding of
early autumn was solemnized
Sunday afternoon at the home of
Mr. and Mrs. Noble Loren Wood of
488 Summit street when their
daughter, Miss Phyllis Wood, be-
came the bride of Harry Frederick
Haberman, son of Mr. and Mrs.
Harry W. Haberman of 538 Vernon
Highway boulevard.

Baskets of autumn flowers formed
an altar in the livingroom where
the bride and bridegroom ex-
changed their vows in the Episcopal
service. The single ring ceremony
was read by Rev. S. S. Hardy, pas-
tor of St. Paul's church at 4 o'clock
in the presence of only the imme-
diate families and close friends of
the bride and bridegroom. They
were unattended.

For her wedding Miss Wood wore
her going away costume which was
a brown crepe suit trimmed with
galaxy and brown pumps. Her
flowers were a shoulder bouquet of
Johanna Hill roses. Completing
her traveling costume were a small
brown hat with a nose veil and
gloves in a harmonizing shade.

White predominated in the de-
corations in the diningroom where
the guests were served following
the ceremony and reception. Baskets
of yellow gladioli and blue
delphinium added a touch of color
to the table which was lighted with
white opers in silver candelabra
and centered with the bride's cake.
Presiding at the table were Mrs. F.
E. Wright and Mrs. Loren Currie.
Mr. and Mrs. Haberman will tour
northern Michigan and the east on
their honeymoon and upon their re-
turn will reside at the home of the
bride's parents during their absence
from the city this winter.

Both Mr. Haberman and his bride
are graduates of Harding High
school with the class of 1928. Mrs.
Haberman attended West Belmont
school and Mr. Haberman attended
Ohio State university. He is as-
sociated with his father in busi-
ness.

Aides from the families of the
bride and bridegroom guests at the
wedding were Mr. and Mrs. F. E.
Wright of Detroit, Mr. and Mrs. E.
H. Bobbet and daughter Eileen of
Ann Arbor, Mich. Mr. and Mrs.
Frank Halset of Mechanicsburg,
Pa. and Mrs. E. H. Roffenberger.

The marriage of Miss Anna
Blanchi, daughter of Mr. and Mrs.
Bass Blanchi of 150 north Main
street and Maurice Fout was
solemnized Sunday morning at
8:30 o'clock at St. Mary's Catholic
church. The pastor, Rev. Father
W. J. Spickerman read the cer-
emony and was the celebrant at the
nuptial mass.

Following the mass a wedding
breakfast was served in the hall
room at Hotel Harding. The table
was decorated with flowers and
centered with a wedding cake hold-
ing a miniature bride and bride-
groom.

For her wedding the bride wore
a gown of blue satin with eggshell
trimming and her accessories were
in harmonizing shades. Her flowers
were pink rosebuds and gypsophila
arranged in a corsage. Miss Mar-
garet Brady, attended the bride as
bridesmaid and wore a gown of
brown crepe with eggshell trim-
ming and her flowers were a cor-
sage of white roses and delphinium. Clarence Stoll attended
Mr. Fout as best man.

The bride is a graduate of St.
Mary's parochial school with the
class of 1930. Mr. Fout is employed
with the Erie Railroad Co.

Following the ceremony Mr. and
Mrs. Fout left on a wedding trip
to Chicago and upon their return
will make their home here. Mrs.
Fout wore for traveling a black
satin suit with white accessories.
